

NWMMOC at Castle Combe Steam & Vintage Show 19 May 2018

A fantastic display of traction engines - full size and miniature - and an array of static engines, along with a large and varied classic car section, tractors, military vehicles, trucks, buses, motorbikes, arena events, autojumble, models and a range of traders. Plenty of food and ice cream vans. One display not to be missed was our very own Roy Evans' motorbikes, and his family collection of Choppers.
