

## Hamper progress no. 4 Castle Eaton to Wroughton

The original rendezvous for 11.00am on Saturday 31st October was abandoned as it was chucking it down! We met up near Diana and Andy's house in Royal Wootton Bassett in far more clement conditions in the afternoon. Only one Moggy in the picture I'm afraid as, with my new hip, I can't get into the convertible at the moment! Total hamper distance now at 111 miles and the hamper is getting steadily heavier!

The Hamper was delivered to Diana and Andrew last Saturday and they then drove it over to me on Sunday. I was really impressed by the amount of donations in it. We took some photos of the handover, sadly it was a bit rainy but hopefully the photos will show us smiling away. Diana and Andrew then drove off home and my son-in-law Andrew drove the van to his house and took photos of his classic Mercedes along with the Post Office van.

This was such a very good idea given to us by Mike Welsh and it was going very well until Mr Boris put us all into another lock down. But we will resume the hamper run as soon as we can. North Wilts MMOC will survive this and be even better when we can mix with each other once more.
